

## In Your Eye

Johnossi

I get that soul, get that peace in your eye  
I get that soul, get that peace in your eye  
In your eye, there's a spark, lets me know I'm not afraid  
And when you go, I will stay here the same

Maybe I'm letting go all the better  
What goes around, I couldn't fit into your world  
Wanna be better, climbing the ladder  
There in your eye, I can see something isn't right

I get that soul, get that peace in your eye  
In your eye, there's a spark, lets me know I'm not afraid  
  
And when you go, I will stay here the same

Maybe I'm letting go all the better  
What goes around, I couldn't fit into your world  
Wanna be better, climbing the ladder  
There in your eye, I can see something isn't right

Maybe I'm letting go all the better  
What goes around, I couldn't fit into your world  
Wanna be better, climbing the ladder  
There in your eye, I can see something isn't right  
I can see something isn't right  
I can see something isn't right
