

# Weak Spots

Johnossi

Wasting my time, no escaping  
Next mistake in the making  
Promised tonight would be different  
No more promises

Feels like a fight on the schoolyard  
What you said hit me real hard  
No more regrets, not a reason  
To go through this again

I don't ever wanna see the blood of my enemy  
I know that this battle is not for me

Now, you call my name  
After 5-6 shots  
And we're back in the game  
Pushing on weak spots

We want it all, gimme oceans  
No control, no devotions  
Live for the fall, the excitement  
Of losing everything

What do you mean? I'm mistaken  
Life's not up for the taken  
Something so sweet must be poisoned  
Can't fool me again

I don't ever wanna see the blood of my enemy  
I know that this battle is not for me

Now, you call my name  
After 5-6 shots  
And we're back in the game  
Pushing on weak spots

Here goes nothing, nothing could be harder  
There's no stopping once we're under water  
Moving deeper dragging down each other  
We'll be here forever

Now you call my name  
After 5-6 shots  
And we're back in the game  
Pushing on weak spots  
Pushing on weak spots
