

# Wrecking Ball

Johnossi

There was a time when I would live a life in order  
Stayed on the traveled road, but dreamt about the sea  
Something came by, opened my mind, deleted the borders  
And I saw the ministry of chaos and believed  
I'm gonna ride this ride, take a swing at my town  
Like a wrecking ball  
And If I do this I'll be the king of my sound  
Like a wrecking ball

And Imma go through, whatever I do  
Like a wrecking ball  
I'm gonna find my strength, put a hole in the sky  
Like a wrecking ball

Yeah

Deep in my mind and heart I know I need to fall apart  
And get up back again, get my head out of the sand  
Something came by, opened my mind, deleted the borders  
And I saw the ministry of chaos inside of me

I'm gonna ride this ride, take a swing at my town  
Like a wrecking ball  
And If I do this I'll be the king of my sound  
Like a wrecking ball  
Go through, whatever I do  
Like a wrecking ball  
Now that I found my strength,  
I'm ready to fly  
Like a wrecking ball

Yeah

Something came by, opened my mind, deleted the borders  
A hole in the sky  
I'm gonna ride this ride, take a swing at my town  
Like a wrecking ball  
And If I do this I'll be the king of my sound  
Like a wrecking ball

And Imma go through, whatever I do  
Like a wrecking ball  
Now that I found my strength,  
I'm ready to fly  
Like a wrecking ball  
Like a wrecking ball  
Like a wrecking ball
