

When it's lovely  
I believe in anything  
What does love mean, when the end is rolling in? Oh  
Let it go, let it stay  
Can we love one another  
Cold, is it safe to be warm in the summer?  
Who knows (Who knows)  
I said who knows

Ooh, teach me to love just to let me go  
I can't believe that I'm not enough  
Not enough  
And so long, no one will be here to save you  
And no one will be here to let you know  
Let you know  
This is your world  
(This is your world)  
This is your world  
(This is your world)

Quietly still, in a lie, oh, good night  
I don't mind

Ooh, teach me to love just to let me go  
I can't believe that I'm not enough  
Not enough  
And so long, no one will be here to save you  
And no one will be here to let you know  
Let you know
