

## Need Is Your Love

Joji

All the nights are long gone  
That's why I'm alone, girl  
Every time we touch is like the very first time

All I need is your love, need is your love  
Need is your love, need is your love, ah  
Need is your love, need is your love, ah

The taste of your lips just keep me going  
I been falling hard, so you got me frozen  
Baby, I love this type of moment  
Supernatural type of loving

Yeah, yeah  
Don't make it right, don't doubt with me  
Hold up, hold up

Wait up, wait up  
All my nights are getting longer, yeah  
I just needed to know, because, because

I am better now  
I'm getting it now  
You shut me down  
You're standing your ground

Our love is a drug  
Hearts turn into dust  
You needed my trust  
I needed your love

All my nights are long, girl  
That's why I'm alone, girl  
Every time we touch is like the very first time

All I need is your love, need is your love  
Need is your love, need is your love, ah

All I need is your love, need is your love
