

Sojourn

Joji

It's almost magic
Lost in translation
Moving mountains
You and I
Caught in the middle
Like in the 2000s
We were dancing
You and I

Can you love a little longer?
Hits a little stronger
Giving into my only vice
Even for the moment
All the right components
Handle me with care in this life
Baby, nothing lasts forever
And death is so much greater
Knowing we were sharing this time
We'll find each other later
And see it through together
We can live it out again twice

I am a fool
Lost and delirious
Time won't undo
But it's not that serious
Sooner or later
Don't we give into it
Maybe it's true
Things were just gearing up

Can you love a little longer?
Hits a little stronger
Giving into my only vice
Even for the moment
All the right components
Handle me with care in this life
Baby, nothing lasts forever
And death is so much greater
Knowing we were sharing this time
We'll find each other later
And see it through together
We can live it out again twice
