

Tick Tock

Joji

Yeah (Oh)

Tick tock
Heavy like a Brinks truck
Looking like I'm tip-top
Shining like a wristwatch
Time will grab your wrist
Lock it down til the thing pop
Can you stick around for a minute til' the rain stop, please god
Tick tock
Heavy like a Brinks truck
Looking like I'm tip-top
Shining like a wristwatch
Time will grab your wrist
Lock it down til the thing pop

As time keeps slipping away (Away)
Girl, don't start feeling a way (A way)
You and I, we are one in the same
Loving in pain, loving in
As time keeps slipping away (Away)
Girl, don't start feeling a way (A way)
You and I, we are one in the same
Loving in pain, loving in

Tick tock, gimme, gimme big bucks
That is all I do, girl
I just hit the jackpot
I wish you were here with me now, so I could feel some
I wish you were here to hold me down like a real one, real one
Live long, wanna be a big shot
Should've stayed away, but always had a weak spot
I've been on the road, and I'm sorry for the mix up
If you still love me, can you see me during liftoff? (Liftoff)

As time keeps slipping away (Away)
Girl, don't start feeling a way (A way)
You and I, we are one in the same
Loving in pain, loving in
As time keeps slipping away (Away)
Girl, don't start feeling a way (A way)
You and I, we are one in the same
Loving in pain, loving in

With my hands in the ocean
With my hands in the ocean
With my hands in the ocean, I pray
I pray, oh, I pray
