

#1U

JoJo Siwa

You're the number one you
Yeah you're the number...

Somebody telling you
You gotta change your look
But you're no cookie cutter, carbon copy
The way you are is real
So go with how you feel
You gotta do whatever makes you happy

Ooh
You're the number one you

Be strong, keep it calm, staying confident
Gotta own who you are, gotta run with it
When you know what you know you can roll with it
Cause there's no one who can be you better, better than you

Whoever you are, whatever you are
Whatever you do (what you do)
You're the number one you
Whoever you are, whatever you are
Whatever you do (what you do)
You're the number one you
Ooh, the number one you
Ooh, the number one you

Somebody telling you
You gotta change it up
But there's nobody who can make it over
One of a kind your style
See from a mile your smile
But don't you let somebody else control ya

Ooh
You're the number one you

Be strong, keep it calm, staying confident
Gotta own who you are, gotta run with it
When you know what you know you can roll with it
Cause there's no one who can be you better, better than you

Whoever you are, whatever you are
Whatever you do (what you do)
You're the number one you
Whoever you are, whatever you are
Whatever you do (what you do)
You're the number one you
Ooh, the number one you
Ooh, the number one you

Nothing wrong with this picture
Who you see in the mirror
Better believe that it's true
There's no one who can be you better, better than you

Whoever you are, whatever you are

Whatever you do
You're the number one, number one
Number one you

Whoever you are, whatever you are
Whatever you do (what you do)
You're the number one you
Whoever you are, whatever you are
Whatever you do (what you do)
You're the number one you
Ooh, the number one you
Ooh, the number one you
