Back To That Girl

JoJo Siwa

When the lights go down and the spark goes out
It's just me at the mirror with my mistakes
And the girl I see staring back at me
I can't forget about her
(Gotta get back to that girl)

One day, I'm circling the stratosphere
Next day, I've hit the ground
Why should I believe that I can win?
I've been lost in the clouds

I'm just trying to keep up
Always trying to be what
Everyone expects of me
No, it isn't hopeless
I just need to focus
On bringing back the best of me

When the lights go down and the spark goes out
It's just me at the mirror with my mistakes
And the girl I see staring back at me
She's trying to remind me that I still got strength
It's like I got the weight of the world on my shoulders
Questions dancing through my mind
When the lights go down and spark goes out
I can't forget about her
Gotta get back to that girl

(Gotta get back to that girl)

So free spinning with the courage
To break free from all of the noise
Might fall but every move is beautiful
Graceful, true to that voice

I don't need to keep up
I don't need to be what
Everyone expects of me
I can see what hope is
I just need to focus
I'm bringing back the best of me

When the lights go down and the spark goes out
It's just me at the mirror with my mistakes
And the girl I see staring back at me
She's trying to remind me that I still got strength
It's like I got the weight of the world on my shoulders
Questions dancing through my mind
When the lights go down and spark goes out
I can't forget about her
Gotta get back to that girl

(Gotta get back to that girl)
