

Damage Is Done

Jojo

Drew a line and
Then you crossed it
The only one that I had
Gave you trust and
Then you lost it
And now you can't get it back

You knew what you were doing
So shut your mouth
You knew what you were losing
It's too late now

The damage is done-done-done-da-done-done-da-done-done
The damage is done-done-done-da-done-done-da-done-done
Baby, you coulda been, shoulda been, woulda been the one
But the damage is done-done-done-da-done-done-da-done-done

Don't waste your breath
Saying sorry
Already made up my mind
If you really
Wanted me then
You know you'd still be mine

You knew what you were doing
So shut your mouth
You knew what you were losing
It's too late now

The damage is done-done-done-da-done-done-da-done-done
The damage is done-done-done-da-done-done-da-done-done
Baby, you coulda been, shoulda been, woulda been the one
But the damage is done-done-done-da-done-done-da-done-done

The damage is done-done-done-da-done-done-da-done-done
The damage is done-done-done-da-done-done-da-done-done
Baby, you coulda been, shoulda been, woulda been the one
But the damage is done-done-done-da-done-done-da-done-done

The damage is done-done-done-da-done-done-da-done-done
The damage is done-done-done-da-done-done-da-done-done
Baby, you coulda been, shoulda been, woulda been the one
But the damage is done-done-done-da-done-done-da-done-done
