

## Demonstrate

Jojo

I live in this fantasy where everything is amplified  
Senses hiding in a flash and everything just comes alive  
This pressure all inside of me is se\*\*\*\* anxiety

Baby there's a lot of freaky shit running my mind that  
I can't say, but I know I can demonstrate  
And I can let my body explain  
I know I can demonstrate  
So I'ma make it simple and plain  
You just need to come over  
I can just demonstrate

I'm arrested by the night and only you can set me free  
Guilty but I'm not ashamed, I'm exactly where I wanted to be (y  
eah)  
I leave the door open wide in hopes that you will sneak inside

Baby there's a lot of freaky shit running my mind that  
I can't say, but I know I can demonstrate  
And I can let my body explain  
I know I can demonstrate  
So I'ma make it simple and plain  
You just need to come over (come over)  
I can just demonstrate

I'm thinking come over, come over, come over  
I'm thinking come over, come over  
I'm thinking

Baby there's a lot of freaky shit running my mind that  
I can't say, but I know I can demonstrate (I know I can)  
And I can let my body explain  
I know I can demonstrate  
So I'ma make it simple and plain  
Come over so I can demonstrate  
(Come over)
