

Know, mmm
You got that loving, yeah, your loving is
You know, mmm
You got that loving, yeah, your loving is gold

Yeah

You're bringing it out of me
From my head to my toes
I call that anatomy
That's the way that shit goes

You're moving inside of me
Speaking so heavenly
I call that divinity
We already know

The way that you love me, you love me, love me alone
You got that loving like your loving is gold
The way that you love me is lovely, love me alone
You got that loving, yeah, your loving is gold

Oh, mmm
You got that loving, yeah, your loving is gold
You know, mmm
You got that loving, yeah, your loving is gold

You're bringing it out of me
My body and soul
Spirituality taking me places thought I'd never go
You're teachin me everything
You're tellin me no
You're making me better from wherever whatever I was before

The way that you love me, you love me, love me alone
You got that loving like your loving is gold
The way that you love me is lovely, love me alone
You got that loving, yeah, your loving is gold

Oh, mm
You got that loving, yeah, your loving is gold
You know, mmm
You got that loving, yeah, your loving is gold
