

Nobody

Jojo

I know you're satisfied 'cause I know what I'm doin'
When it comes to mine, don't need no home improvements
I gotta frame so fine, and it get up on this mattress
You gotta match my light 'cause I know this all too well

Tell me who have I been kidding all along
I've been humble way too long
When they ask who will love me like me

Nobody (No, no)
Nobody (Nobody)
No-no-no
Nobody (Nobody, don't love me like that)
Nobody (Nobody)
No-no-no
Nobody
Said that it don't make no sense
Yeah, I said what I meant (Nobody)
Nobody (Nobody, don't love me like that)
Nobody (Nobody)
No-no-no (Nobody)

Sugar get on my time, when I have this conversation
You gotta blow my mind 'cause I got no toleration
For a low vibe, y'all be imitating
If you act, act right, 'cause I know this all too well

Ooh, tell me who have I been kidding all along
I've been humble way too long
When they ask who will love me like me

Nobody (No, no)
Nobody (Nobody)

Not about to let you play me for some dummy
