Jojo

Good morning
Need to get up
Get myself together
Open up the blackout blinds

Unbottled my emotions
Sipping on a potion
Last night was a real good time

I don't know if I'm hungover
Or if I'm drunk right now but
People keep on calling
I don't do no talking
Last night was a real good time

All the drinks I had
Banging on my forehead
How did I get back?
Damn, I'm never gonna drink again

But every day's another celebration
Life is the occasion
Party till the sun's coming out again
But when I wake up, who's gon' be my saviour?
Excuse my behaviour
Swear I'm never, never gonna drink again

Good afternoon
Feeling bad still
I need a prayer and an Advil
I got too drunk tryna keep up
Slurring my words, tryna speak up

We always say "just a few drinks"
You know that I know what that means
Next thing, it's five in the morning
How is it five in the morning?

All the drinks I had
Banging on my forehead
How did I get back?
Damn, I'm never gonna drink again

But every day's another celebration
Life is the occasion
Party till the sun's coming out again
But when I wake up, who's gon' be my saviour?
Excuse my behaviour
Swear I'm never, never gonna drink again

(I know I'm gonna say it again)
But every day's another celebration
Life is the occasion
Party till the sun's coming out again
But when I wake up, who's gon' be my saviour?
Excuse my behaviour
Swear I'm never, never gonna drink again

(I'm never gonna)

(I'm never gonna)

(Take me)
(Take me)
(Take me)
(Take me)
(Take me) I forgive on my ex
(Take me) And my sex be the best
(Take me) It was love, it was so fast
(Take me) Put in work, just get it back
(Take me) 69, lock it down
(Take me) Tear it up, make it bounce
(Take me) Say your name, say it loud

(Ooh, ooh, ooh, ooh)
(Take me) Take me, take me
(Take me) (Makin' love to music)
(Take me) Take me, take me
(Take me) (Makin' love to music)
(Take me) Take me, take me
(Take me) Take me, take me (Makin' love to music)
(Take me) Take me, take me
(Ooh)
