What you need? Tell me what you need
If you squeeze, boy, I got the juice
With a little bit of vodka, unpack your childhood traumas
Tell me what it is? Tell me what it ain't?
Tell me what, why we even bother?

Tell if you need space
'Cause I don't do shit half way
You're gonna lose me that way
Don't lose me that way

Tell me what you need, need
(Let me know, huh, let me know, let me know, huh, let me)
Tell me what you need, need
