

# Always In My Heart

Jolina Magdangal

Oh hey yeah-eh  
Nanananana  
Hayayayayah

Bright as the light  
Shining upon your shoulders  
Shadows collide  
Flowers flowing through the waters

Saying that love would be on our side  
There is no saying goodbye

Touch the skies  
Free to fly  
For you are always in my heart  
Take my hand  
And you'll understand  
That you and I are meant to be  
Yeah

Dark as the night  
But stars never stop to wander  
Moon is alive  
Chasin' and watchin' over

Look in my eyes  
Follow your heart  
Take all these sadness apart

You on my mind  
There's no telling lies  
There is no saying goodbye

You're always in my heart  
Take my hand  
And you'll understand  
Are meant to be  
Touch the skies  
Free to fly

Lala lala lala  
Take my hand  
Understand
