

# This Morning On The Radio

Jolina Magdangal

This morning on the radio  
I heard to play a song that I wanna know  
Every line is full of meaning  
And I know the melody  
And this gonna be the reason  
And if something  
That reminds me of you and me

We're together  
But only in my memory  
I remember  
The songs we used to sing for me  
But all that it's over  
We'll be ever see each other again  
Ever again  
You're a real friend I have  
And now I'm missing you so bad  
Is there a chance the two of us  
To be together again

This morning on the radio  
We played and get the song that I wanna know  
While outside the rain has started  
It just make me want to cry  
Am I only enough to know  
Why I miss you  
Do I know the reason why?

We're together  
But only in my memory  
I remember  
The songs we used to sing for me  
But all that it's over  
We'll be ever see each other again  
Ever again  
You're a real friend I have  
And now I'm missing you so bad  
Is there a chance the two of us  
To be together again

This morning on the radio  
I heard to play a song that I wanna know  
Every line is full of meaning  
And I know the melody  
And this gonna be the reason  
And if something  
That reminds me of you and me

Every single day  
I'm waiting here for you  
And my heart is hoping you will miss me too  
If it time your love's where you won't begun  
You and me  
Promise me  
That you'll always stay
