

Big Buddha Song

Jon Anderson

Take away the ones that break the big expansion
They be running out of time to change the course
They be cutting down the children to forget you
They be dancing on the ones that use the force
They be dancing on the mercies of the force

This is your life, this is your time
You are the love, you are the light

Count the profits of the ones all out to get you
Passing out the words that force the first command
Catch the spirit of the ones that hold the letter
See the balance of the earth is in the sand
See the balance of the earth is in your hand

You are the love, you are the light
This is your time, this is your time...

I wanna thank you Buddha for being my teacher
I wanna thank you Jesus for bringing this love
I wanna thank Mohammad for being the prophet
And singing of Krishna from heaven above

We have heaven... We have heaven...
He is here, do look around

There's a force that took the picture of the feedback
Many moving many don't know where to go
Take away the passion as the greed delivers
They be dancing in the fire that hit the snow
They be dancing in the fire and they don't know
They don't know that...

You are the love, they don't know that, you are the light
Divine mother said... This is your time
You gotta get ready now... This is your time...
You gotta get ready now, yaya, yaya

I wanna thank you Buddha for being my teacher
I wanna thank you Jesus for bringing this love
I wanna thank Mohammad for being the prophet
And singing of Krishna
And singing of Krishna from heaven above

Every day
Every day
Every day
Every day
Every day I'll send you all my love
Every day I send you all my love
Every day I send you all my love
Every day

I wanna thank you Buddha for being my teacher
I wanna thank you Jesus for bringing this love
I wanna thank Mohammad for being the prophet
And singing of Krishna

And singing of Krishna
