

Forever

Jon Anderson

No one ever could love the way that you love
No one could ever give the way that you give
No one could ever hold me the way that you hold me

To speak of wisdom come
Within the second wonder of
With all the power divine
It reaches in my senses
So chase this first and last
To knowing it will to get too
Just let it shape your heart so all will be revealed

Straight for the deeper love given
Straight for the very strong
Straight for the deeper love given
So many dances reach into the second wonder of
She gives me soul reflection
I see it in my everyday
Which ones who kindle and aspire to re-continue
Will redesign their parts
So all will be revealed

Straight for the deeper love given
Straight for the very song
Straight for the deeper love given
So everyone will see it
So everyone will see it

No one ever could love the way that you love
No one could ever give the way you give
No one could ever hold me the way you hold me

Knowing that I be yours
Knowing that I be yours
Forever

Showing me your moonlight
Showing me your sunlight
Without them we are nothing
Nothing

No one could ever love the way you love
...You get it
No one could ever give the way that you give
...You see it
No one could ever hold me the way that you hold me

Knowing that I would be there with the most important life
Knowing that you would be mine
Knowing that you will be mine
Forever, forever
Forever and a day

No one could ever love me
The way that you love me
No one could ever give
The way that you give to me
