They come in sacred ways before the sunlight
They come through sacred worlds in stories full of real life
They come in sacred moves that send them flying over you
They come in sacred moves and purpose slowly take like fire like too

With every mountain they invite the sacred song
Within the very lore of being now, now...
So full of wisdom so descend upon this mantra life

They come in sacred moves that turn around and touch you closely
They turn the sacred way the thought is of the first time knowing

So reach out when they are calling
Take the time to even notice they are part of you
For the finding of the secret you can always rediscover it true...

They come in moonlight all the more because they like to
Soon, soon, soon...

Of all the takes and dances of the bitter stone
Of all the fixes and corruption we are ever to see
How the bridge now delivers, the breaking of man
All ever to the sinner life ever total time

Take a drink from this better life
Take a drink from this better life
Better by far...

They call it seeing of the children's life thirst for love
They call it take away the children's fear of life
Call it 'this time' first time, changing the signs
They call it seeing the children for the very first time
Call it 'that, that river of eternal bliss'
Call it quintessential time
Call it 'everything is light'
Call it this time, this time...

Discovery of the silver moonlight turning too
Discovery of the days of happening through to you
Discovery of the days of happening close to you
Discover all the things are coming coming round
They call it days of wonder
They call it every day is calling calling round

They call it 'children of the diamond life'
For giving us light
Forever changing our design
Forever to be sung
For all we see, for all the savior, they're calling us
Sent us giving love, sent us giving love...

It's coming now, it's coming, it's coming now...
It's coming now, it's coming now...

Save love, save love, given to us
Save love, save love, given to us
Save love... save love...

Discovery of the reason of it all
Discovery of the reason of it all

Yeah yeah
Who do you believe in giving?
