

## Know...

Jon Anderson

More than in and love  
More than in and love  
More than in and love  
More than in and love

You chase the better dream, you move whichever way  
The time it comes to take away your sorrow  
You dance the very dream, you feel inside of you  
You stare in all of its' glory

As the spirit comes to you, remember that you are the one  
You are the love, you all above, immeasurable  
Together through the doorway and see that it's true  
You're the only one that hears what you hear  
And see's what you see for what it is  
You are eternal and and for ever

You chase the better dream, you move whichever way  
The sun will always shine on your tomorrow

Always know that you are within the space  
For giving love for giving heart  
Within the soul for ever and ever

With love in your life, love in our life...  
Love is the reason, love is the reason...  
Give me a reason, get us up to me  
To get us to me, to get us up to me  
To get us up to me, to get us up to me

A little love in our life, love in our life  
Love is the reason, love is the reason...  
Give us a reason, get us up to me...

Know that you can't understand it  
Know whatever you're finding there  
And show the moment is with you  
And know that you are forever  
And know that you are forever in the light

No matter what happens for it is  
No judgement at all just let it go  
The promises that sets so many times  
Just know that the will always discover you  
No matter what happens for this  
Remember that you always re-discover

It's calling the love that shines through you  
We really see this part of giving  
To live this life of realization  
To never forget the river of your dreams  
As you be delivered

Know that this heaven is with you  
With your heart forever  
Go in the moment, the moment and show  
To go every word every song every lust

For the love that you give  
And say that you see forever  
Know that your love is true  
It is the trust to the promise that delivered you

All in the countenance life  
Here is the mountain shepherd of love  
Say for the countless winner  
Say for the proudest builder say

All in the countenance life  
Here is the mountain shepherd of love  
Say for the countless winner  
Say for the proudest builder say

Say, say for the countless winner  
Say, say for the proudest builder say

All my love and all my love and all my love, my love, my love...

Dancing, love me, singing [?]  
Not seen crystals [?]  
Healing stars with steps they coming  
All in the trance of the [?] days...  
All in the sense of peace  
All in the sense of peace  
...
