

Knowing

Jon Anderson

As in vision standing out the life
Now in pictures set to speak of time
All in the level this wanting to learning the sign
Take it away some justice of design
The ley-line singers...

South say dancing
Love may jump and get it
North see crystal shores they see it

Healing stars will set them covered
All in the trance of the "Tremalon days"

East and west are set to covering life
Southern dreams will dance forever
Healing stars will set them covered
All in the trance of the "Tremalon days"

As in vision standing out the life
Now in pictures set to speak of time
All in the level this wanting to learning the sign
Take it away some justice of design
The ley-line singers

Outseen thoughts that touch me typical law
None fast metal let me know dancing
Traveling outside, traveling tip toe ten
Watch that speed we get free, get up

South say dancing love may jump and get it
(Outside northern law can get it)
North see crystal shores the seen it
(That's why leaving you can feel it)
Healing stars will set them covered
All in the trance of the "Tremalon days"

As in vision standing out the life
Now in pictures set to speak of time
All in the level this wanting to learning the sign
Take it away some justice of design
The ley-line singers
