

Take Your Time

Jon Anderson

Rushing here and there, I'm told to slow down
Just relax, take your time, don't move so fast, so fast
Tempers in the air, I'm told to slow down, ease back
By the fire, feel free, feel free
People pushing by and why
I don't mind, take my time, there's no race
Life is fine, life is fine
Come and take my hand and we'll be in a dream
Just relax, there's no rush, take your time
Take your time

CHORUS

Worry's on your mind, always try to find happiness
Looking everywhere, life is but a care
Love will come always to you
Rushing here and there, I'm told
To slow down, just relax, take your time, don't move so fast
Tempers in the air, I'm told to slow down
Ease back by the fire, feel free, feel free

CHORUS

People pushing by and why
I don't mind, take my time, there's no race
Life is fine, life is fine
Come and take my hand and we'll be in a dream
Just relax, there's no rush, take your time
Take your time
