

## Lately

Jon B.

Pretty young thing, sexy young girl, I've been thinking about  
How we use to share one world, but that's over now  
Life without you just ain't life and it's killing me  
'Cause we just walked away, turned our backs on the beautiful dream

I want you back 'cause I'm in need  
I'm in need, all I need to know  
Have you thought about me?

Lately, all the trouble we use to get in my baby  
Lately, in the back seat of my Benz now baby  
Lately, we'll let the top drop, you'll get on top baby  
Lately, have you thought about me, thought about me? yeah

Girl I was wrong, so dead wrong with those things I did  
How could I lie? How could I cheat? How'd you put up with it?  
Just like L.L, man I need love but you're so far away  
You put it on me, this player's so lonely, there's got to be a way

I want you back 'cause I'm in need  
I'm in need, all I need to know  
Have you thought about me?

Lately, all the trouble we use to get in my baby  
Lately, in the back seat of my Benz now baby  
Lately, we'll let the top drop, you'll get on top baby  
Lately, have you thought about me, thought about me? yeah

What keeps me missing all that good love?  
My psyche won't let me forget all the good love we made  
Though we're worlds apart, I'm still buggin' on it lately

Lately, all the trouble we use to get in my baby  
Lately, in the back seat of my Benz now baby  
Lately, we'll let the top drop, you'll get on top baby  
Lately, have you thought about me, thought about me? yeah

Lately, all the trouble we use to get in my baby  
Lately, in the back seat of my Benz now baby  
Lately, we'll let the top drop, you'll get on top baby  
Lately, have you thought about me, thought about me? yeah

Lately, all the trouble we use to get in my baby  
Lately, in the back seat of my Benz now baby  
Lately, we'll let the top drop, you'll get on top baby  
Lately, have you thought about me, thought about me? yeah
