

Paradise In U

Jon B.

Stared into that smile
She speaks a million words with her silence
She always makes me high
When we combine, the battle stations fall down
The whole world could stop right now
She runs her fingers through my hair
Kiss me on my head, yeah
Feelin' like I could run to her like we're safe
Inside our bed, ooh baby

Girl, it's wonderful planning my life with you
Manifesting all with the things we do
Here's my heart
Girl, I'm gon' give it to you
'Cause all that's sacred is inside of you

Let's make all our dreams come true
I found a lil' bit of paradise in you, baby
Paradise
Let's make all our dreams come true
Paradise in you, baby
Paradise in you
Let's make all our dreams come true
Found a lil' bit of paradise in you, baby
Paradise
Let's make all our dreams come true
A lil' bit of paradise in you, baby
Paradise in you

I finally understand
Why I had to go through all that pain back then, yeah, yeah
I had faith it would be you
The earth nourished our roots to grow again
For us now nothing seems to matter
See babies in our future, maybe a son
Premonitions of a life
Full of much more love and less in strife
You are the one
You are the one, yeah, yeah, yeah, yeah

Girl, it's wonderful planning my life with you
(Planning my life, planning my life with you, baby)
Manifestin' all with the things we do
(In all with the things we do, here it is)
Here's my heart (My heart)
Girl, I'm gon' give it to you
(You know I'm gonna give it, give it to you, baby)
'Cause all that's sacred is inside of you
(You know it's inside of you)

Let's make all our dreams come true
(Dreams come true, paradise in you, paradise)
Let's make all our dreams come true
(I found it, paradise in you, paradise in you)
Let's make all our dreams come true
Paradise
Let's make all our dreams come true

Paradise in you

Yeah, yeah, yeah

Paradise in you

Paradise in you

You know I found paradise in you

Let's make all our dreams come true
