

# The Ride of Our Lives

Jon B.

Yeah, yeah, yeah, yeah  
Whoa, whoa, whoa, whoa  
Whoa, whoa, whoa, whoa, yeah, yeah, yeah  
Yeah, yeah, yeah, yeah, yeah, yeah, yeah  
Yeah, whoa, whoa, whoa, whoa, whoa

I gave love one more last time  
Not what I expected, it was true perfection  
Still I wasn't sure if you fit my rhyme  
Like a poet's letter, streaming words together forever  
Then you gave me life through a precious little girl  
She changed my focus and helped me notice  
That that's what love is

I wanted it (Yeah), you wanted it  
We had to see what this felt like  
We wanted it, once we got to it  
We had to be spending way more time  
So high, this feeling, in the sky, it's lifted  
Once we start, we shift it into overdrive  
What we both wanted, now we both own it  
The ride of our lives (Yeah)

I knew from the first glance, I was frozen  
Fresh like a foreign car on the showroom floor  
Staring at perfection, call it 60 seconds  
Instant upgrade with this affection  
As the passion grows like a speedometer  
On the dashboard, I put my pedal to the floor  
I fled right there when I floated right through your front door  
That's what the seatbelt's for, ooh baby, oh

I wanted it, you wanted it (Ooh baby, oh)  
We had to see what this felt like  
We wanted it (We wanted it), once we got to it  
We had to be spending way more time  
(Now we got a little one)  
So high, this feeling, in the sky, it's lifted  
Once we start, we shift it into overdrive (Ooh baby)  
What we both wanted, now we both own it  
(What we wanted, now we own it)  
The ride of our lives

Let's get to the next level  
You'd make me rearrange my life for you  
We never knew how special  
And I know that it's worth it, I know that it's worth it  
Those eyes, so incredible  
'Cause I see the same look in our little girl's eyes  
We gon' make it work  
We gonna make it work  
'Cause I've learned the grind, it changes time

I wanted it (I wanted), you wanted it (You wanted)  
We had to see what this felt like (Yeah)  
We wanted it, once we got to it  
We had to be spending way more time (Spending more time)

So high, this feeling, in the sky, it's lifted  
Once we start, we shift it into overdrive (Yeah, yeah)  
What we both wanted, now we both own it  
The ride of our lives (Yeah, yeah)  
I wanted it, you wanted it  
We had to see what this felt like (So good)  
We wanted it, once we got to it  
We had to be spending way more time  
(Spending way more time, baby)  
So high, this feeling, in the sky, it's lifted  
Once we start, we shift it into overdrive (Oh)  
What we both wanted (Yeah), now we both own it (Yeah)  
The ride of our lives (Oh, ooh)  
I wanted it, you wanted it (Woo)  
We had to see what this felt like (Oh, whoa, whoa)  
We wanted it, once we got to it (You know what it is)  
We had to be spending way more time (Spending more time)  
So high, this feeling, in the sky, it's lifted (Yeah, baby, oh baby)  
Once we start, we shift it into overdrive (Yeah, yeah, yeah)  
What we both wanted, now we both own it  
The ride of our lives (Yeah)  
I wanted it (Yeah), you wanted it (I wanted it)  
We had to see what this felt like (You wanted it)  
We wanted it, once we got to it  
We had to be spending way more time (We wanted it)  
So high, this feeling, in the sky, it's lifted  
(And it felt so good)  
Once we start, we shift it into overdrive  
(Got me lifted off your love, baby)  
What we both wanted, now we both own it  
The ride of our lives  
  
Oh, oh, oh, oh (Yeah, yeah, yeah)  
Yeah, yeah  
What we wanted, we wanted it, yeah, yeah, yeah, yeah  
Oh yeah  
You wanted, I wanted, you wanted it, and it felt so good  
Mmm, you wanted it (We)  
Oh, ooh  
The ride of our lives, oh yeah  
Oh, oh  
I wanted it, you wanted it, you wanted it
