

Butterfly

Jon Batiste

Butterfly all alone
But can you fly on your own?
Take your place in the world today
Butterfly flying home

Cherry plum and chewing gum
Mini-skirts and cars that hum
Driving 'round with your head held high
Butterfly flying home

Stay a while here with me
Up underneath the stars
When you go you'll be free
'Cause you know who you are
you're a butterfly, baby

Color scheme from a dream
A tapestry that's so supreme
I mean I've never seen
Something so dang beautiful oh child
As a butterfly flying home

Flying home

Ooh whoa whoa
Whoa whoa whoa ooh

You see I'm howling at the moon
Day and night (Ah whoa ooh)
They say I'm as crazy as a loon
But I'm alright
All dressed in white

Butterfly in the air
You can fly anywhere
A sight beyond compare
A sacred song
And a sacred tone
Butterfly flying home
