

Endless Love

Jon Batiste

Momma put a kettle on the stovetop
Daddy put a log on the fire
My sister and me put lights around the tree
As we listen to the choir
Every year I think to myself
Who I am and who can I help?
And every year, I think to myself
What really matters
Is what you do for someone else

It's the time for the sleigh bells ringing
It's the time when the children's singing
It's the time when the spirit's bringing
Joy to the world

Let us come together (Let us come together)
Sharing love that lasts forever
Because life is so much better (Oh, so much better)
When there's endless love

This year, when we gather 'round the tree
Don't forget the reason is to live in perfect harmony

It's the time for the sleigh bells ringing
It's the time when the children's singing
It's the time when the spirit's bringing
Joy to the world

Yeah yeah yeah yeah
Let us come together (Let us come together)
Sharing love that lasts forever (Sharing love)
Because life is so much better
When there's endless love

Let us come together
Sharing love that lasts forever
Because life is so much better
When there's endless love
