

# KID AGAIN

Jon Bellion

I'm free when I'm underneath your light  
Jaded then you opened my eyes  
I am a kid again I can do anything  
I am a kid again I can do anything

Wild in west  
It's wild in the west there's wolves at night  
But you say the word  
This dawg gon' bite

I am a kid again  
I can do anything  
I am a kid again  
I can do anything

Oh my love  
What happened to your light  
What happened to your light

I am a kid again  
I can do anything  
I am a kid again  
I can do anything

I feel the yah back in control  
I feel the yah back in my soul, soul, soul, soul

Sun creepin all up in the window  
I lift it open let the wind blow  
(On me) god go before me like a pistol  
Shoot me to the stars away we go, go, go, go

I am a kid again  
I can do anything  
I am a kid again  
I can do anything

Oh my love  
What happened to your light  
What happened to your light...

I am a kid again  
I can do anything  
I am a kid again  
I can do anything

Wake up  
Can't you see they took away your pride  
Wake up  
Can't you see they took away your light  
Wake up  
Can't you see they took away the vibe  
What happened to you  
I just gotta answer my call  
I don't even care if I fall  
I don't even care if I fall  
Fuck it, wake up

Oh my love  
What happened to your light  
(Wake up)  
What happened to your light

I am a kid again  
I can do anything  
I am a kid again  
I can do anything

Oh my love  
What happened to your light  
(Wake up)  
What happened to your light

I am a kid again  
I can do anything  
I am a kid again  
I can do anything

(Wake up)  
I am a kid again  
I can do anything  
I am a kid again  
I can do anything
