

# Make Love

Jon Bellion

You know uh the world is a dangerous place baby and  
And I think you just kick and stay in for the day  
Yeah, you can stay with me. I mean, you know  
Whatever happens, happens  
You know it's dangerous out there, ya know?  
Let me talk to you

With so much wrong in the world  
I'm just glad I found you  
I'm just glad I found you  
So many guns shot for no reason  
I'm just glad I found you  
I'm just glad I found you  
Oh

So lovely if we go outside  
I think we'd be risking our lives

So I have an idea  
We should make love, we should make love  
'Til the world comes back around  
'Til the world comes back around  
We should make love, love, love, love, love  
(Love, love, love, love)  
'Til the world comes back around

Come on baby. You know, you know it sounds good  
So let me, let me explain it to you

I'm just trying to lay low, she'll see where the day goes  
Stay home, I will give you loving by the case loads  
Stay up in the shade, you'll get burned by the sun's rays  
Don't go for a run cutie, I can make your pulse raise  
Risky situations for the birds, they can have'em  
Cause the only one I'm inviting, my friend Sam Adams  
And eleven of his friends, make a twelve pack slap'em  
On the couch, we can sip'em 'til it's safe outside  
Instead of watching the economy slide  
I'm just trying to see my fingertips glide  
Across your body, that's the safest flight I'm gonna fly  
Lions, tigers, bears. Oh My!  
Cause I'm a sure shot  
Leave it if the door knocks  
Cause these sheets and these pillows and blankets be like Fort Knox  
We can jam on the bed to we switch and let the floor rock

See I'll even do a piano solo for you  
Yeah! Woo!  
Ewa-Ewa-e, Ass stay home, ewa, off day [x5]  
So is that a yes or a no? Hehehehe
