

## WASH2

Jon Bellion

Here we go

Treat your body like a river and  
Let it wash all over me  
See you coming at me like a wave and  
Let it wash all over me

Touch me twelve ways, stars on the lake look like a million diamonds  
Touch me twelve ways, stars on the lake look like a million diamonds  
And let it wash all over me

I don't need a star  
Your face is like a full blown universe  
And boy's gonna dive in where you are  
You fit me fit me right, oh  
Left eye waterfall  
You see me from a third eye point of view  
Oasis in my arms, my wonderwall  
You fit me fit me right, oh fit me fit me right

Lay your grace on me  
You amaze me  
When she walks away  
That's my baby

Treat your body like a river and  
Let it wash all over me  
See you coming at me like a wave  
Let it wash all over me

Touch me twelve ways, stars on the lake look like a million diamonds  
Oh  
Touch me twelve ways, stars on the lake look like a million diamonds  
Let it wash all over me  
Touch me twelve ways, stars on the lake look like a million diamonds  
Oh woah oh  
Touch me twelve ways, stars on the lake look like a million diamonds  
Let it wash all over

Let it wash all over me

Another great one  
Amazing  
It sounds fuckin' great  
Ready?
