

## At Home

Jon Bryant

We were born into a world on fire  
But I know that we were meant to be  
When the smoke and flames build up too high  
You're always there for me  
You clear the air I breathe

You make me feel at home  
You, you make me feel at home  
This love, it grows  
No matter where we go  
You make me feel at home

We have known this world in times apart  
And you're in all my favorite memories  
It wouldn't matter if the skies went dark  
Your heart is all I need  
I'm drawn to everything

'Cause you make me feel at home  
You, you make me feel at home  
This love, it grows  
No matter where we go  
You make me feel at home

There's no fear here  
When you're lying in my arms  
There's no better place  
Than to stay right where we are  
And I'm holding on to make it last  
Tomorrow always comes too fast  
I never want it any other way

You make me feel at home  
You, you make me feel at home  
This love, it grows  
No matter where we go  
You make me feel at home  
You make me feel at home
