

# Lightspeed

Jon Bryant

Light speed  
You were coming in at light speed  
Caught a glimpse of you so blinding  
I put all my fears behind me

There's no end to all the places we could go  
And I never wanna see you on your own  
Chase the light, before its gone  
I'll go anywhere you want  
Don't take it slow  
I gotta know

Who are you now?  
Honestly  
Who are you now?  
Honestly  
I feel like we've changed  
I feel like we'll never be the same

Take two, followed through but the moment wasn't right  
Stay true, makin' do like a detuned satellite  
Your vibrations get to me  
Now I'm cheating gravity  
But I see  
You're hiding

There's no end to all the places we could go  
And I never wanna see you on your own  
You're the world, where I belong  
I'll go anywhere you want  
Lets take it slow  
I gotta know

Who are you now?  
Honestly  
Who are you now?  
Honestly  
It feel we've changed  
I feel like we'll never be the same

With eternity in stone  
No I don't wanna know  
What might be  
How I could I even know  
This love would put me  
Over lightspeed  
Over lightspeed

Who are you now?  
Honestly  
Who are you now?  
Honestly  
It feel we've changed  
I feel like we'll never be the same  
...
