

# Nothing

Jon Bryant

Brother, you were first to bring me home  
Father, you have welcomed me and lovingly you've shown  
Although I have turned my back many times before  
I can say full well, you love me still  
I can say full well, you love me still

Open up and live the life renewed  
Father, your heart beats in line with everything that's true  
Only fools deny you and I know I'm one to say  
When I was so far, you loved me still  
When I was so far, you loved me still

Nothing, nothing, nothing is worth living for  
Nothing, nothing, nothing is worth dying for  
But you, but you, but you, but you

You carried your love right up to the cross  
You left the rights you had aside and died a sacrifice  
Sin you were for that short time and hated for us all  
This I know full well, you love me still  
This I know full well, you love me still

Nothing, nothing, nothing is worth living for  
Nothing, nothing, nothing is worth dying for  
But you

I look to when the clouds roll in  
When rain pours hard upon this broken soul  
It knows, it knows my heart is told I know you love me still, s  
till  
You love me still, you love me still, you love me still, you lo  
ve me still
