

Lover

Jon Foreman

Lover, be patient with me
Lover, don't judge my defeats
Lover, come take what you need
I'm in love

Lover, don't even the score
Lover, don't lock up your doors
My lover's what my love is for
I'm in love

Without love, I'm the soil without seed
Without love, I'm the ship without seas
Without love, I'm the ghost of the man that I want to be
Lover, be patient with me

Lover, be patient, be kind
Lover, don't run from the fight
Lover, what's yours was once mine
I'm in love

Lover, don't envy the crowd
My lover, don't run with the proud
Lover, don't you count me out
I'm in love

Without love, my words come out choked
Without love, all my actions are smoke
Without love, I'm the ghost of the man that I want to be
Lover, be patient with me
