Christmas Saved Us All

Jon McLaughlin

The hustle and the bustle
The lovers kissing in the cold
Moments making us feel old
In a good way
Like a song that plays forever

And the millionth time you never
Get sick of hearing it
And over time you realize what it meant
And you sing loud
When you sing out

I keep closing my eyes just to feel it
And I keep watching the snowflakes fall
Always and forever I'll believe it
So hang the lights and deck the halls
Christmas saved us all

The houses of red and green
Twinkle underneath the sky
And the reason for the season lives inside
Of our hearts now
And we sing out

I keep closing my eyes just to feel it
And I keep watching the snowflakes fall
Always and forever I'll believe it
So hang the lights and deck the halls
Christmas saved us all

Snow comes, covering the ground
Make a holy city of this town
And I lay in my bed like a kid
Dreaming 'bout all the things I did before

And I keep closing my eyes just to feel it
And I keep watching the snowflakes fall
Always and forever I'll believe it
So hang the lights and deck the halls
Christmas saved us all

Christmas saved us all
