

## Down in History

Jon McLaughlin

I'll hold you in the dark and wait  
For the spark that once was  
Between us  
Love's only cost is  
Feeling the loss of things that never  
Leave us  
So when you're right next to me  
The miles between go on forever  
Just remember

I will always come find you  
And plant my feet right beside you  
We can call it fate or destiny  
But we are and always will be  
Going down in history

In the battles we've fought  
We give it all we got I know that  
We can take it  
This love is tough  
Bend it all you want  
You're never gonna break it  
So when you're right  
Next to me but out of reach  
Up in your head don't forget that

I will always come find you  
And plant my feet right beside you  
You can call it fate or destiny  
But we are and always will be  
Going down in history

Oooo  
Down in history

Oooo  
Down in history

I will always come find you  
And plant my feet right beside you  
You can call it fate or destiny  
We are and always will be  
Going down in history

Oooo  
Down in history

Oooo  
Down in history
