

Falling Back

Jon McLaughlin

We started out with a promise
To have and hold and be honest
Unaware of the people we'd become
In the life beyond us
Into the unknown like we knew it
And we've come this far through it
If you'd ask me how this is what I'd say

I just keep falling in love with you
Every time like I'm falling for somebody new
I've grown and you've changed our love is the same
As when we said I do
Oh and I just keep falling back in love with you
Falling back in love with you

Now no one can see in the future
Well hallelujah
Cause there's a trust in the mystery of
Just letting life happen to you
So let's hold on to dreams and our visions
And let go of predictions
Cuz the only thing that I really know

Is that I'll just keep falling in love with you
Every time like I'm falling for somebody new
I've grown and you've changed our love is the same
As when we said I do
Oh and I just keep falling back in love with you
Falling back in love with you

Oh I'll just keep falling in love with you
Every time like I'm falling for somebody new
And I know I've grown and you've changed our love is the same
As when we said I do
Oh and I'll just keep falling back in love with you
Falling back in love with you
