I Am Always Gonna Love You

Jon McLaughlin

Well I felt it from the moment
That you stepped into the light
There was absolutely nothing I could do
I be blessed or I be cursed
For the rest of my life
Cause I know that
I was always gonna love you

I'm gonna love you till my dying day
I'll be beside you when you're old and grey
Just like the feelings that I feel right now
I'm never gonna go away

And if you ever hit your head
And you lost your memory
So that every morning started life anew
Well with every passing day
I'd invent another way
To show that I am always gonna love you

I'm gonna love you till my dying day
I'll be beside you when you're old and grey
Just like the feelings that I feel right now
I'm never gonna go away

From the picture perfect moment
That i never wanna end
To the couch and TV kind of afternoon
You're the light that's always shining
There's a million reasons why
I know that I am always gonna love you
