

Like We'll Live

Jon McLaughlin

Nobody knows where to go from here
So everybody just goes out
We don't really wanna show our tears
So we laugh like there's nothing to cry about

We all wanna do the thing that's right
Just not right now
We've been partying on borrowed time
And time is running out

I hear the clock tick ticking like a bomb
Sirens singing a song
Kids Swimming in the ice that's melting
Playing with the hands we've dealt 'em
Rev those engines up
I think this joke was on us
No matter the weather
We keep living like we'll live forever

We've been sleeping with the enemy
And waking up alone
Racking up fines and fees and paying them with loans
I've been watching Idiocracy and everytime I do
What used to be a comedy is sadly coming true

I hear the clock tick ticking like a bomb
Sirens singing a song
Kids Swimming in the ice that's melting
Playing with the hands we've dealt 'em
Rev those engines up
I think this joke was on us
No matter the weather
We keep living like we'll live forever

Oh the memories we made
They're all going up in flames
What a beautiful shame
