

## People Like You

Jon McLaughlin

Come a little closer please won't you stay here by my side  
I just want to see the world through your beautiful eyes  
Cause the one I see can get so heavy and spin out of control  
And you have always been a steady hand I can hold

People like you can make the sun come out  
Shining so quietly behind the clouds  
Love I can see right when I need I hear Jesus speaking through  
People like you

Sometimes I give love as though I'm afraid of running out  
I ration it like water in the middle of a draught drought  
But to you it's more like music, more like dancing in the rain  
You're a mighty river flowing while the seasons change

People like you they make the sun come out  
Shining so quietly behind the clouds  
Love I can see right when I need I hear Jesus speaking through  
People like you

Oh you're like a guiding light  
Oh in the darkest night  
I'm holding on for dear life to  
People like you
