Stranger Things

Jon McLaughlin

How long till the rain turns to ocean?
How long till the clouds turn to sky?
How long until my heart looks like yours
And yours looks like mine?

Tell me, how many nights, how much time must go by
Till I know you and you know me?
'Cause it's all I can do, telling lies from the truth
Baby, why do we believe stranger things?

How long until love is not emotion?
How long till forever's more than time?
How long until my heart looks like yours
And yours looks like mine?

Tell me, how many nights, how much time must go by
Till I know you and you know me?
'Cause it's all I can do, telling lies from the truth
Baby, why do we believe stranger things?
Stranger things, why do we believe?

How many nights, how much time must go by
Till I know you and you know me?
'Cause it's all I can do, telling lies from the truth
Baby, why do we believe stranger things?
Oh, stranger things, why do we believe?

Tell me, why do we, why do we believe it?
Stranger things
I believe in you
