

## You and I

Jon McLaughlin

I got a funny feeling, everything's going to be okay  
All of my worries, suddenly fading away  
And I just can't stop smiling  
Ever since I heard the news  
That you love me, and I love you

All of the stars above us  
They could fall out of the sky  
and dark clouds could come, block the sun  
from now til the end of time

See I don't need anything, as long as this is true  
That you love me, and I love you

So lay your head on my shoulder  
Take my hand and go with me  
Forever side by side  
And I want to wake every morning  
to your face and my falling heart  
beating side by side

But I don't have all the answers  
and I sure ain't a perfect guy  
I've got no bank account or fancy house  
high in a high rise

But one thing's for certain,  
I'm one happy, lucky fool  
'Cause you love me, and I... I love you
