Push It To The Limit

Jon Oliva's Pain

White witch fever, the only way you know Night time creeper, need somewhere to go Schizoid, paranoia running through your mind Everything's is closing in, you're running out of time

```
Gotta push it to the Limit
```

Psycho liar, do anything for cash You'd cut your grandma to make this feeling last No sense of reason, the ecstasy you chase Every second brining you closer to your grave

```
Gotta push it to the Limit
```
