

## You Never Know

Jon Oliva's Pain

Living in disguise  
I'm sure they have arrived  
Strange race seeking power  
Countdown designated hour  
Really want to know  
Are they friend or foe  
Or just a cast of lunatics

Oh... you never know  
Oh no... you never know

They're here amongst us all  
They seek the west to fall  
Evil souls, twisted minds  
Just waiting for a sign  
Inside their hatred grows  
From the lies they've been told  
Who's the loser in the end

Oh... you never know  
Oh no... you never know

Everywhere sleeper cells  
Standing at the gates of hell  
Satan smiles with delight  
Soon to feed his appetite  
Do you want to know  
What he has in store  
For you the pain  
Will never end
