

Borrowed Time

Jon Pardi

Waitin' at a stop sign, a school bus passes by
Yeah that wasn't long ago, that was me hitchin' a ride
And I lost track of many yesterdays, the way it felt to be that
age
The people, the faces, they all change
Ain't it funny how it slips away

Yeah we're all down here just a livin' on borrowed time
Can't push a button and just hit rewind
From the day we're born 'til the day that sun don't shine
Yeah we're all down here just livin' on borrowed time

I don't wanna live life with regrets
Yeah there'll be mistakes I haven't made yet
And if you don't climb then you can't fall
And money sure don't buy it all
And the only thing I know
Is you can't take it with you when you go

Yeah we're all down here just a livin' on borrowed time
Can't push a button and just hit rewind
From the day we're born 'til the day that sun don't shine
Yeah we're all down here just livin' on borrowed time

So just keep livin' it up
Cause there's never enough
Of livin' and learnin' and lovin'

Yeah we're all down here just a livin' on borrowed time
Can't push a button and just hit rewind
From the day we're born 'til we're standin' in the judgment line
Yeah we're all down here just livin' on borrowed time
Yeah we're all down here just livin' on borrowed time
