

## Heartache Medication

Jon Pardi

Same old dive, same old end of the work week drink  
Bartender knows my name, but I don't mind  
She kicks 'em up strong, serves me up right

And here I go again  
I'm drinkin' one, I'm drinkin' two  
I got my heartache medication, a strong dedication  
To gettin' over you, turnin' me loose  
On that hardwood jukebox lost in neon time  
My heartache medication, well it suits me fine  
And I'm drinkin' enough to take you off my mind  
I got my heartache medication

Another girl, another dance to a country song  
Turnin' me on, here's to a good time  
And halfway to feelin' all right

And here I go again  
I'm drinkin' one, I'm drinkin' two  
I got my heartache medication, a strong dedication  
To gettin' over you, turnin' me loose

On that hardwood jukebox lost in neon time  
My heartache medication, well it suits me fine  
And I'm drinkin' enough to take you off my mind  
I got my heartache medication

Single drinkin' doubles  
Teardrops turnin' into bubbles  
Yeah, a little later on  
I'll probably find me some trouble

And here I go again  
I'm drinkin' one, I'm drinkin' two  
I got my heartache medication, a strong dedication  
To gettin' over you, turnin' me loose  
On that hardwood jukebox lost in neon time  
My heartache medication, well it suits me fine  
And I'm drinkin' enough to take you off my mind  
I got my heartache medication

Heartache medication  
Takin' me away, oh whoa
