

# Rush

Jon Pardi

I'll never forget the first time that I laid my eyes on you  
It was a California blue sky, backdrop, blond hair  
Knocked me right out of my boots

Now I'm lying here holding you in my arms  
Nothin' on but the night  
You light up the dark  
You're a spark in my heart  
And I've been waiting on this all night

So, give me that rush, baby  
Can't ever get enough, baby  
You shake me to the ground, yeah  
Feel it all around, yeah  
Love the way you drive me crazy

Hit me with that lovin' feelin'  
You got that lonesome healin'  
Sexy from your lips  
Down to your hips  
Gimme that rush, baby

The taste of your skin  
Is smooth like silk  
Just like the sheets we're in-between  
You make me want to howl at the moon  
I'll do anything for you  
And this feeling that you give to me

So, give me that rush, baby  
Can't ever get enough, baby  
You shake me to the ground, yeah  
Feel it all around, yeah  
Love the way you drive me crazy

So hit me with that lovin' feelin'  
You got that lonesome healin'  
Sexy from your lips  
Down to your hips  
Gimme that rush, baby  
Yeah, gimme that rush

You give me a fever I've never know  
Just like California gold

So, give me that rush, baby  
Can't ever get enough, baby  
You shake me to the ground, yeah  
Feel it all around, yeah  
Love the way you drive me crazy

Hit me with that lovin' feelin'  
You got that lonesome healin'  
Sexy from your lips  
Down to your hips  
Gimme that rush, baby  
Yeah, gimme that rush

Gimme that rush  
Gimme that rush  
Gimme that rush
