

# She Gets To Drinking

Jon Pardi

I want to get on her level  
Want to play that song  
The one that makes her smile  
Get her mind all gone  
Get a little more closer  
A little less sober  
When she comes walking in the room

I've never seen a heart breaking  
Be so intoxicating

When she gets to drinking  
Her hair starts falling  
When she gets to dancing  
Last call ain't ever calling  
She gets every head spinning  
From the buzz she's getting  
She puts the stars under the neon moon  
When she gets to drinking  
She gets me drinking too

I want to get over  
What she's getting over  
When it comes to crying  
She don't need no shoulder  
Whatever she's doing is doing something to me  
Makes me want to buy us another drink

When she gets to drinking  
Her hair starts falling  
When she gets to dancing  
Last call ain't ever calling  
She gets every head spinning  
From the buzz she's getting  
She puts the stars under the neon moon  
When she gets to drinking  
She gets me drinking too

She gets me drinking  
She gets me drinking  
She gets me drinking too  
When she get s to drinking  
She gets me drinking  
She gets me drinking  
She gets me drinking too  
Ah, yes, she do

I've never seen a heart breaking  
Be so intoxicating

When she gets to drinking  
Her hair starts falling  
When she gets to dancing  
Last call ain't never calling  
Gets every head spinning  
From the buzz she's getting  
She puts the stars under the neon moon

When she gets to drinking  
She gets me drinking too

She gets me drinking  
She gets me drinking  
She gets me drinking too  
She gets me drinking  
She gets me drinking  
She gets me drinking too  
Ah, she sure does
