

Don't Fight Alone

Jon Reddick

There are angel armies I have yet to see
I believe
There are prayers I've never heard surrounding me
There's a strength that's not my own when I am weak
So, I have no doubt that He stands with me
I have no doubt that he stands with me

I know that I don't fight alone
I know that I don't fight alone
This is His promise
Yeah, this is my hope
No matter what it looks like
I don't fight alone

There's a cloud of witnesses
They cheer for me
The giants of the faith
The giants of the faith
They cheer for me

There's a Fathers love like I could never dream
So many reasons that I believe
So many reasons that I believe

I know that I don't fight alone
I know that I don't fight alone
This is His promise
Yeah, this is my hope
No matter what it looks like
I don't fight alone

I know that I don't fight alone
I know that I don't fight alone
This is His promise
Yeah, this is my hope
No matter what it looks like
I don't fight alone

The God of our fathers was faithful to you
Over and over they trusted in Him
We stand on their shoulders
And carry the flame
He's been faithful before
He'll be faithful again

The God of our fathers was faithful to them
Over and over they trusted in Him
We stand on their shoulders
And carry the flame
He's been faithful before
He'll be faithful again

He's been faithful before
He'll be faithful again

He's been faithful before
He'll be faithful again

Whatever may come we'll sing it out

I know that I don't fight alone
I know that I don't fight alone
'Cause this is His promise
Yeah, this is our hope
No matter what it looks like
I don't fight alone

God will not leave us alone
God will not leave us alone
This is His promise, yeah this is our hope
No matter what it looks like
We don't fight alone
